

HUMAN COMPUTER INTERACTION

“LAB 09”

(Test UX for mobile application assets)

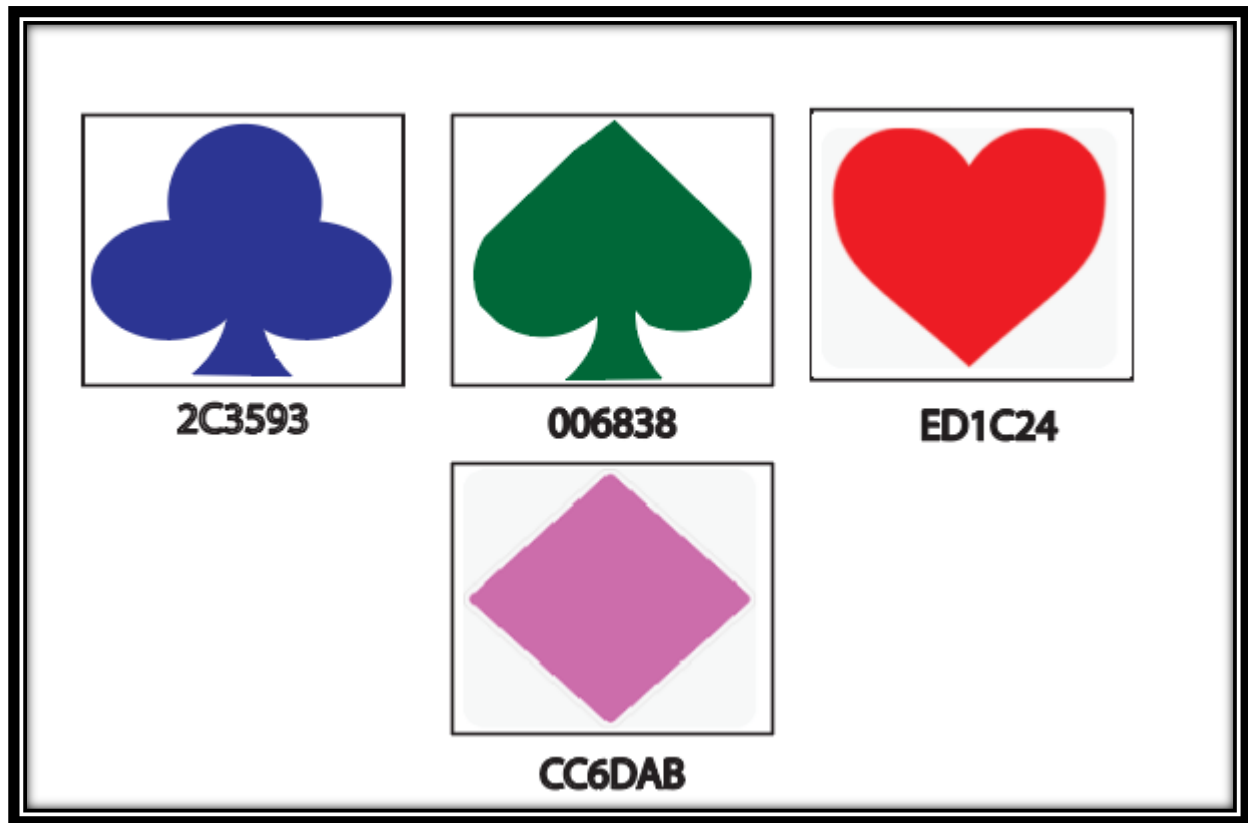

TANZEELA ASGHAR

2021-BSE-032

BSE 6A

TASK 1:

Evaluate/ test the icons designed in previous lab, tweak the design if required. Use other color codes than conventional red and black.

TASK 2:

Design 1 card for each icon having value=8

1. Use conventional red and black
2. Use other color codes as in task#01

Test for the UX design as mentioned in the reference (consider bottom cards in a row only)

Use suitable card color and background color and mention the #hex values.
